

2012 FPNA Scholarships Awarded

Funded from proceeds of the Floral Park Home and Garden Tour

By Julie Humphreys, 1st Vice President and Sponsorship Committee Chair

L to R: Lizbeth Ortiz, Karina Contreras, Justin Fletcher, Annalise Lyn Morgan, Brenda Vasquez

On June 10, the Floral Park Neighborhood Association held its quarterly general meeting honoring the recipients of the 2012 Floral Park Scholarships. Following a careful examination of the 76 high school applications and 20 college applications, the FPNA Sponsorship Committee selected four Santa Ana high school seniors and one Santa Ana College student to each receive a \$1,000 scholarship. Applications were judged based on the students' most meaningful volunteer or service experience and how it impacted their lives. Congratulations to this year's recipients!

Annalise Lyn Morgan (Godinez Fundamental High School) Joseph Bangor Memorial Scholarship recipient. Annalise's school activities include: President of AVID (Advancement Via Individual Determination), President of Godinez Historical Society, Vice President of the National Honor Society, Gold Pride Member, and member of the California Scholarship Federation. She lists her volunteer service at the Autumn Years Alzheimer's Home as her most meaningful experience. She also volunteers as an archivist at Orange County Heritage Museum, volunteers for youth basketball at Godinez High School, and for Susan G. Komen Race for the Cure. She plans to become a nursing major. (continued on page 4)

Shall I compare thee to a summer day?...

Hi Neighbors!

We are very excited for what is in store for 2012. In addition to our annual favorites, like the Freedom Fest, Chili Cook Off and Floral Park Holiday party, we are also adding some new events to spice things up in 2012!

In September, we are working on bringing back the Summer Concert in the cul-de-sac of Heliotrope. Granted this year it will be more of a Fall Concert, but expect the same festive spirit and ambiance from years past. Since we are in the midst of planning the event, please stay tuned for more details to come in the near future!

Also, for all you golf fans, we are planning a Floral Park Fall Scramble on October 13 at Riverview Golf Course! It will be a day of golf, food, drinks, and prizes!

In addition to these events, we are excited for Freedom Fest on June 30! Join your friends and neighbors and celebrate Independence Day with live music from the '80s cover band Past Action Heroes, carnival games and a watermelon eating contest for the kids! This year, we are thrilled to partner with Families of Floral Park (FOFP) on Freedom Fest to bring even more fun for everyone!

Furthermore, FOFP will be holding a silent auction at the event with some incredible baskets! You won't want to miss your chance to bid on these fantastic items! If you would like to make a donation to the silent auction, please contact:

COOKING DINNER?

By Janelle McLoughlin - Janellemcloughlin@gmail.com

Please stop by Sarah May Downie Herb Garden at the corner of Flower Street and North Park Boulevard.

Yes, if you need a pinch of rosemary, basil, fennel, chives or mint we have many choices of herbs that are thriving in our Sarah May garden. We welcome all of our neighbors to take a snip. This Spring young and old volunteers had fun replanting the park. If you have a favorite herb in your backyard, please bring and plant it yourself. We have extra space. The more the better!

The snails are a challenge since they too enjoy the tender leaves of these herbs. We ask you if you see a snail or two munching on the tender leaves of our herbs please redirect that snail. We want you to know that the snail battle is fought with child and dog friendly products.

New neighbors might not know that Floral Park Neighborhood Association adopted this space from the City over 16 years ago. It might surprise one to know that this beautiful peaceful corner had become a patch of dirt back in the '90s. The original Floral Park Garden Club initiated the re-build idea and brought it to the Floral Park Neighborhood Association. This goes back to 1996 when the founding garden club members like Jean Hollingshead, Harriet Railsback, Jane Tucky, Phyllis Smith and many more would smell like hotdogs for days.

These folks came up with the idea to sell hotdogs at the Home Tour to raise money for Sarah May Downie Park. Wow, over the years they sold thousands of hotdogs to build this wonderful corner park. A regular site at home tour would be Mr. Kelly and Mr. Smith unloading another 500 hotdogs from Costco. Something about those hotdogs were the best tasting hotdogs ever was because they were filled with the love of volunteering to make our neighborhood better.

Today we continue fundraising for the park through our heart stone path. These heart stones are for sale and are a great way to honor a family member, welcome a new child or say good-bye to a pet (see page 22 for details on heart stones).

We welcome you to come sit for a spell on our newly painted park benches and gaze at the blooming azaleas, hydrangeas, and lilies.

2012 FPNA Scholarships Awarded *(continued from pg 1)*

Justin Fletcher (Middle College High School) Justin's school activities include: President of Environmentally Connecting Others Club, Treasurer of Stand Up To Cancer, Secretary of Invisible Children, President of Hackie Sack Club and participation in the Inter-Club Council. He lists his experience helping an elderly neighbor with her landscaping and recycling efforts as greatly inspiring his environmental awareness. He wants to attend CSUF and become a history teacher.

Lizbeth Ortiz (Seegerstrom High School) Lizbeth's school activities include participation in the Pink Ribbon Club, Club Refuge, French Club, American Red Cross Club, and Career Beginnings Program. She lists her most meaningful experience as that of volunteering at the Country Villa Nursing Home for four years helping others in need. Her other volunteer efforts include the Catholic Workers Homeless Shelter and Sacred Heart Retreat Center. Lizbeth wants to attend UCI Nursing School and obtain a Ph.D. in nursing.

Karina Contreras (Seegerstrom High School) Karina has participated in JV Softball from 2008 – 2010 and varsity dance. She describes her service volunteering with special education students at the Adult Transition Center for Santa Ana High School and Santa Ana College as her most meaningful volunteer experience where she can really make a difference. She also volunteers at the Orange County Library. She plans to attend San Diego State University.

Brenda Vasquez (Santa Ana College) Alice Sinclair Memorial Scholarship recipient. Brenda's school activities include participation in U-Link, MESA and Adelante. She describes her efforts volunteering at the Mercy House homeless shelter as having a profound effect on her awareness of others and how she can really make a difference in their lives. She has also volunteered at the Orange County Food Bank, Godinez High School and St. Anne Church. Her educational plans include transferring to UCI and obtaining a Masters degree in biology.

To the right, you will see a letter of thanks for the 20 years of success behind the Floral Park Home and Garden Tour. As I note there, this is truly a group, if not a village, effort.

Here, I'd like to comment specifically on this year's Tour. I must say that we were very nervous early on as to whether we'd have enough homes and gardens available. When word went out that we had only two commitments the response was overwhelming. In fact, at the end, we were able to allow some volunteers to pass for this year but we'll be back at them in 2014. (We know who you are and where you live!) So it is especially relevant that I extend the neighborhood's many thanks to the wonderful home and garden owners who came forward to make the 2012 Home and Garden Tour a great success. If ever I doubted the true grit of the residents of Floral Park, it will never happen again, I promise. You were simply amazing.

We can now safely say that this tradition we've built has developed a life of its own. We can look forward to many years, even decades, of greater success. Think of it, we had some 2,000 participants; 40-50 fabulous classic cars; and 60 vendors selling beautiful antiques, jewelry, creative wares. I even commissioned artist Brighton Smith to do a gorgeous painting for over my fireplace! The food and beverage stands were outstanding as usual. Families of Floral Park provided homegrown and homemade lemonade, always a highlight of the Tour. Our own Floral Park Mexican restaurant, Pico de Gallo, sold great tacos and other Mexican food. And, of course, it wouldn't be a Home Tour without hotdogs, provided the past few years by Jerry's Hot Dogs. Excellent all the way around, I must say.

Our streets were flooded with visitors, friends and neighbors admiring our incredible neighborhood. But, while they see the beauty of our homes and gardens, I hope they also were able to peer into the soul of Floral Park. I always tell newcomers that you can't remotely see what is truly inside until you spend time getting to know the fascinating array of warm, connected residents.

The great news is that we netted money to fund scholarships and other charitable contributions for 2012, and we still have some left over to support social activities and neighborhood improvement. Additionally, we were lucky to dodge some rain on the Monday following the Tour April 28 and 29 – I believe we kept our "unbeaten" string alive as we've never had a weather incident. What with the prospect of global warning, you never know. (Just kidding.) I think someone up there likes us.

So, let me just say at the close, it's been a great run. I look forward so much to many more. It's truly the highlight of my year. What an amazing place to live!

We could not have done it without you... for 20 years!

As we wrap up two decades, yes 20 years, of the Floral Park Home and Garden Tour, I must say my overwhelming comment has to be "We could not have done it with YOU!" And just who is the YOU in my comment? Well, all of you who came to the Tour and supported our neighborhood, but also so many of you who went the extra mile to make sure we were a great success!!

First and foremost, I have to say "Thank You" to the home and garden owners who have so graciously allowed us to show off their homes and gardens. All I can say is WOW! So many people have said that this year's was the best Tour ever, and that may be. If so, I think it is due to all the heart and soul that each of you put into your homes and gardens. I truly feel that the heart of Floral Park was displayed this year in a way we may never have done before. I was totally serious when I said we had two houses in February and we would have to cancel the Tour unless others came forward. And come forward they did!! I was so very impressed and appreciative! You made us look so very good!

And then, the Committee members outdid themselves. My "side kick," Beverly Schauwecker whom I lovingly call my "brain," has worked with me for 20 years. And I assure you that she deserves an award just for that! But no stone was left unturned, because she always checked and double checked on each detail, and reminded and organized us all.

Who could ever have a better PR person than Linda Schulte? I think the Floral Park Home and Garden Tour was everywhere, even on Yelp! I was so impressed. And the press pieces were great. We even had three publications here the weekend of the Tour. And to put icing on the cake, so to speak, Linda wound up being the photographer for the weekend. Speaking about soup to nuts!

And who else could organize nearly 60 vendors and keep them all happy as well as provide a fabulous assortment of items to entice us all like Susan Hart? She has also been doing this for 20 years, and she has it down to an art form! It is a delight to see.

Have you ever tried to herd cats? Well imagine scheduling 190 docents for the weekend. That is what Nicki Curran and her able assistant, Wanda Marrero, did, and they did it beautifully. Homeowners and guests alike complimented the professional and knowledgeable docents.

Art Director, Sketch Artist, Designer Extraordinaire – that is Lea Pascoe. She did everything from design the book and promotional pamphlet to print out No Parking signs at the last minute. All the while, she assisted homeowners to stage their homes and completed write ups on them as well.

The garden write-ups were done by Susan Wilkie. I am so glad someone knows the names of those plants!

The classic car show was organized and headed by John Richmond and Santiago Martin and I have never seen a more beautiful display. But I did miss the margarita maker this year! And, a hat's off to the late Allan St. Jacques, who initiated our classic car show many years ago.

John Schulte handled the registration and pre-sale tickets expertly as he does everything he touches. Having that information available was invaluable.

And you may wonder who put up and took down all the sign, barricades, flags, tables and chairs. Well, I must tell you that Boe Boezinger has organized an incredible team who just "get it done." And this year, we were challenged by extra barricades required by public safety, and Ramin Faiz and his team did a great job putting up and taking down 120 extra barricades.

Without the relentless efforts of Tom Pataca getting signatures from homeowners and securing the permit, we could not have had the street available and, in addition, he secured the teams to man the ticket booths. Plus:

All the ads were handled beautifully by Nancy St. Jacques in her everyday efficient manner.

Ruth Seigle organized and arranged the Homeowner/Garden owner appreciation party.

Jane Martinez handled the phone calls from those with questions about the Tour.

In addition, we had support from Toni Kimball, Jennifer Faiz, Susan Grande, Helen Alberts and Paul Sanford.

So the long and the short of it all is that "it does take a village" to put on a Home and Garden Tour. And thankfully, we had a village of support this year, as we have each year. And a Thank You actually goes to all of these people and also so many more who just do their part to make this place the most incredible place I have ever lived, truly "one big family."

Thanks to all of you, and let's make it another 20 years of fun and games.

Jug Herlihy Honored with Induction into The Golden Eagles

By John Schulte (*Heliotrope Drive*)

This year, for the first time in many years, Jug and Bobbe Herlihy missed the Floral Park Annual Home and Garden Tour. They had a good excuse, though, as Jug was busy in Florida being honored with induction into a very elite group of Naval and Marine aviators.

The formal name of the organization is "Early and Pioneer Naval Aviators Association" (EPNAA, for short), but it is more generally known as "The Golden Eagles." Founded in 1956, it serves as a living memorial to those early Naval aviators who pioneered and provided the leadership for the development of a unique military aviation force. Over the years, this highly honored and elite group of those outstanding Naval aviators has been extended to include those who have represented and defended the United States with distinction since before World War II through Vietnam.

The organization has a very limited membership, restricted to a maximum of 150 from the Navy and 50 from the Marine Corps, taken from all who have served. As one might guess, its membership is full, and the only way to gain admission is if a member passes away, or moves into emeritus status. Therefore, rarely more than one or two new members are inducted each year.

Collectively, the current members hold a Medal of Honor, 3 Congressional Space Medals of Honor, 43 Navy Crosses, 65 Silver Stars, 393 Distinguished Flying Crosses, 93 Bronze Stars, 35 Purple Hearts, and 2,857 Air Medals.

Jug was encouraged last year to submit his application, and earlier this year he was notified that he had been selected for one of only two membership openings in this elite and exclusive group and would be inducted into the organization in April, 2012. So, Jug and his wife, Bobbe, traveled to Orlando, Florida, April 26 through 28 for the ceremonies. While there, they had the opportunity to meet the other Golden Eagles, including the first man on the moon, Neil Armstrong. No doubt there was a lot of swapping of "old war stories," and Jug can certainly add a few himself.

Jug served with distinction with the Marines for over 21 years. During his time as a pilot in World War II and the Korean War, Jug flew 131 combat missions, including 51 at Guadalcanal, 40 in the Marianas and Okinawa, and 40 more in Korea. During this period of service, he was honored as a recipient of 3 Distinguished Flying Crosses, seven Air Medals, and one Purple Heart.

Of course, some would argue that Jug's greatest honor out of World War II would be the hand of Bobbe, his wife of almost 67 years... their 67th anniversary will be this coming December.

The official certificate of induction into The Golden Eagles cites the name George B. Herlihy, Major USMC (Ret.)...but we just affectionately know him as "Jug," and he and Bobbe have been beloved residents and friends of Floral Park for about five decades.

So, hats off to Major Herlihy... Floral Park's very own war hero and now a Golden Eagle.

Tribute to Tina Booth

By Judy Johnson (*Ross Street*)

During Home Tour weekend I was riding my bike and was stopped by Michelle Donahue who was working the FOFP Lemonade Stand. Michelle asked me who Tina Booth was. I told her that Tina is a very accomplished artist who volunteered to paint our lemonade stand. She painted the cutest lemon tree with a face on it puckering its lips from the sour lemons. It looks like a tree right out of the movie "The Wizard of Oz." Absolutely darling! Tina's art is what makes our lemonade stand so darn cute! I also shared with Michelle that Tina has been battling the horrible disease of cancer and had stage 4 brain cancer.

Tina was a very dear friend of mine and I loved her very much!! Even in the midst of suffering with this horrible disease, Tina never lost her wonderful sense of humor! She could always make me laugh!

Last week I got the call that I so dreaded, Tina lost her battle with cancer. Heartbreaking news! I went to her funeral and spoke with her family and they shared some information about Tina that I wanted to pass along to all of you.

Tina was born in London in 1940. Her family moved to Kent in 1945 and her father John Skewes was an expert tailor with Saille Row in London and fashioned clothing for royalty, including the Duke of Windsor and many actors and actresses including Tyrone Powers. Her family moved to the United States in 1956 and settled in Laguna Beach. Tina met the love of her life, Clarence Booth, and they were married in 1957. They were married for 55 years. They have two children: a daughter Cora and son John. They bought their current home on Santa Clara in Floral Park in 1965.

Tina was an excellent painter. She loved oils and acrylics. Many friends and neighbors have enjoyed displaying her art in their homes. She also loved going to our local watering hole, The Olde Ship, for a glass of ale. One of her paintings was the logo of the Olde Ship that hangs over the side entrance as you walk into the restaurant.

So Tina has left her mark here in our neighborhood, on our lemonade stand, and most importantly, in our hearts. Tina was one-of-a-kind and I will miss her very much.

Cancer is a horrible disease! Many of us have family members or friends suffering with this disease. It's not prejudiced either; it comes in many forms these days, attacking just about every possible body part. So to those of you that are suffering with this disease or know someone with it, my heart goes out to you!! Don't let a day go by without hugging and kissing the ones you love. Let them know how much they are loved today because tomorrow may never come!

Blessings to all of you!!!

PRESIDENT'S PODIUM

By Mark McLoughlin, FPNA President

A big thank you goes to the homeowners, the Home Tour Committee, and the many volunteers who made the 20th Annual Floral Park Home and Garden Tour another success. We appreciate all of our neighbors that invited so many friends and family to attend the weekend event.

What a great touch of recognition by the Home Tour Committee this year presenting years of service milestone pins to docents. I wore my docent pin with great pride, and could see so many other docents wearing theirs as well.

Actually, I think the Friday evening prior to the Home Tour was one of the best experiences... driving home from work, rounding the corner into Floral Park and feeling the buzz. Neighbors were out in their yards doing last minute sprucing up, spreading mulch, sweeping the sidewalk or, in the case of Gene Andre, finishing his final hours of gardening. My favorite was driving down Flower Street and seeing a huge branch walking down the street with legs; no faces, just legs and leaves. Come to find out it was a team of neighbors removing a fallen tree branch from the street. These are just a few examples of how everyone working together makes our neighborhood the BEST it can be.

As we dedicate this newsletter to the recipients of the annual Floral Park scholarships and donations to Santa Ana non-profits, we are also looking at our unallocated funds and what projects and improvements the neighborhood should address this year. Over the past years 20 years we have installed the vintage street signs, built Sarah May Downie Herb Garden, reforested over 200 trees, and made many other improvements.

Folks have been asking what the plans are. We have some great ideas that have been brought forward by neighbors and we are looking for more. We want to hear from you. Some suggestions have already been made from neighbors like Jeff Smith (Flower Street) who asked for the vintage crowns to be replaced on the streetlights; David Ko thinks it would be a great architectural touch to have a simple monument in the median on Flower at 17th; Sandy DeAngelis wants drought tolerant plantings; Janelle McLoughlin suggested continuing reforestation throughout the neighborhood, and several neighbors requested a price proposal for vintage streetlights on Heliotrope Drive and the 1800 block of N. Ross Street. These are just few of the many ideas that have been brought forth.

Over the summer the FPNA will be having meetings to review proposals and costs. A presentation will be made at the September General Meeting.

So, in the previous incarnation of this continuing trek to fill my stomach, I told you about The Playground, our new, almost experimental restaurant in downtown Santa Ana. I was struck by the almost geeky approach the clan there takes to cooking, reminiscent of how so many high-tech start-ups began with true believers, wondering where life and technology would take them. This juxtaposition of food and technology leads me to share with you some ways to combine the two to make your own life a little easier and perhaps a lot more fun.

OK, can't think of a place for dinner this weekend? Wonder if that restaurant you've been meaning to go to has availability? Want to know if there's a good Peruvian restaurant in Orange County? Well, just whip out your smart device and, voila, your problems are solved. . . if you have the right "app," short for computer application or program. Apps typically are small in computing power but powerful in what they deliver.

One example is the ubiquitous Yelp, an app that's kind of a Wikipedia regarding local establishments. I use it almost exclusively to get a feel for restaurants I may want to visit. The app, available also in Web form, is an invaluable tool to find the hidden gems in the area. For my next contribution I'm planning to do something on delis within a reasonable distance of Floral Park. So, when I go to Yelp on my iPad or iPhone, I find plenty of options, located on a Google map and with ratings from one-half to a full five stars. Detailed reviews by consumers just like you accompany the ratings. Some places have hundreds of such reviews.

But, one of my favorite features of Yelp is Monocle which takes advantage of what is called augmented reality. When you're in Yelp on your smart device (iPhone, iPad, Android phone, etc.) you find the tab that says Monocle and tap it. You may be asked to rotate the device to get its compass going. Soon, almost miraculously, you can point the device in any direction and up will come a display of restaurants (or whatever business you've chosen) in the direction you're pointing the smart device that indicates what's available within a short distance (a mile or so) from your present location. This is not only handy at home but invaluable on the road. You can always find a range of places to eat, shop, etc. I mention this because almost no one seems to know about this feature. It's one of my favorites. And, there is Urban Spoon where you can select by city, cuisine, and price range. It has a slot machine feel.

So, you say, I'm not going out. I'm staying home. I want some ideas about what to cook, given what I have available. My favorite for this is Epicurious. Now, I must own more than 100 cookbooks of all manner. It's an addiction of sorts. I think Epicurious has saved me a few hundred bucks over the past couple of years. So, it only has 100,000 recipes. Well, that might get me through the rest of my life! Just plug in a theme (Christmas, brunch, a chef, food items you have, you name it) and up come dozens or more recipes that will give you ideas. Just this week, we hosted a breakfast meeting for a support group that puts on an annual wine tasting for the Wooden Floor, our neighbors on Main Street. One of the members always comes up from Newport Beach with breakfast she made about 4 a.m. that morning and wows us. I had to stand up to the challenge Barbara presented. Good old Epicurious saved the day. We did a smoked salmon, potato, egg dish that put me in her league. That was topped off with an apricot bread pudding with homemade caramel sauce. Easy to do, delightful to the palate. Thank you, Epicurious.

Another dilemma. When I've been in England it's common for Sunday lunch (and, yes, they still do that over there. . . a lot) to have a pork roast with cracklings. I love them but had never made them. So, what to do about learning that technique. What else but YouTube? Again, available on the iPhone or iPad. And, of course, on the computer. I searched YouTube for "cracklings" and up came several how-to videos that guided me right through the process. And, the result was delicious beyond compare.

Got three or four things cooking at the same time? Try KitchenPad, an app that lets you customize up to seven separate cooking times and even lets you choose the most appropriate alarm. My favorite is for beef or steak when I choose a mooing cow as my alarm! Need to choose a cheese? The answer is Fromage, an app that lists hundreds of cheeses with pictures, notes, and wine pairings. Magnifique.

Finally, one other jewel, OpenTable. If I'm in need of a reservation, this is my go-to app. It's available on all platforms. You can choose almost any location across the country. Orange County can be found under the state listing or as a subset of Los Angeles - grrrrrr. Regardless, you just enter the date, restaurant name (perhaps chosen from one of the above apps), and number in your party. You'll get a response of times, typically at 15-minute increments if those are available. Click one and you're off and running. Almost all reservations I make these days come via OpenTable. For you value-loving folks, they even have a points club you can join for better deals.

And, I've just scratched the surface, frankly. So, give them a try. It's a great way to combine food and fun... well for us foodie-techies, that is.

MEMBERSHIP

By Jessica Carr and Joy Rideout
Membership Co-Chairs

We are off to an incredible start this year. We have a goal of raising \$10,000 for our membership drive and we are almost there!! We are currently at \$9,945 with only 150 households contributing. I would love to blow that number away this year so we can continue to improve our overall neighborhood communication and mixers. Remember, you are already a member of this neighborhood just by the fact that you live here.

The money we raise during the year is not a membership due per se but rather a donation that pays for the administration of the neighborhood association. Please consider a donation no matter how small to keep our neighborhood association running smoothly. The Floral Park Neighborhood Association is a 501(c)(3) tax-exempt charitable organization. Contributions are deductible under state and federal law to the extent applicable (consult your tax professional for advice).

Let's talk about the fun stuff now. Did you attend the Neighborhood Mixer in March? If you did then you know we had over 80 neighbors there and we had an awesome time! If you didn't, then you must attend the next one to be held on June 24th at 2102 N. Ross Street at the home of Rob and Judy Johnson. All we ask is that you show up with a small appetizer that serves about 4 people and ready to have a good time. The Membership Committee will handle the rest.

Last couple of items:

- Is anyone interested in having the next mixer at their house? All you have to do is provide the location! The dates are September 9 and December 9 and held from 3-6.
- If I have missed your donation or I spelled your name wrong or missed including your partner's name, please let me know!! I will get that corrected immediately.
- If you have moved in prior to March 25th and did not receive your Welcome Gift, let me know. We don't want to miss anyone!
- For neighbors new to Floral Park after March 25th, we encourage you to come to the mixer and pick up your gift or we will deliver later that day after the mixer is over.

We look forward to a stellar rest of the year and truly appreciate your continued support,

Jess and Joy

One Small Idea, One Ongoing Concert

(by Dan Peters via Jessica Carr)

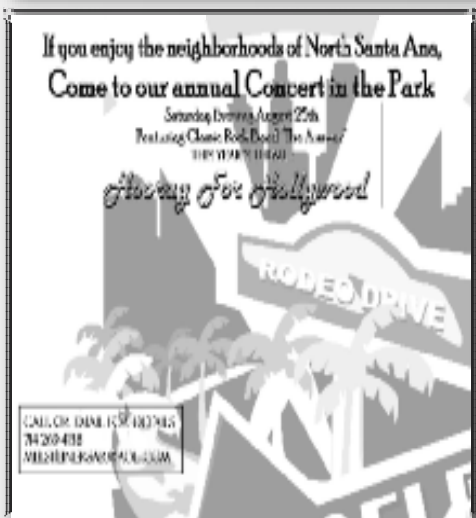

One day a young woman named Wendy Navarro had an idea to have a talent show in Morrison Park and suggested inviting the surrounding neighborhoods to join in the fun. During the discussions about how this would look someone suggested that a band they had seen play would be a good fit for this venue and so it was decided; "The Answer" would play a concert in the park with the neighbors invited to bring dinner and snacks and watch the band play. Tables were made available for rent at a family friendly price with the idea that participation was more important than profit.

Noble as this notion is, the band and other vendors needed real money to participate in the event. The neighborhood associations reached out to local businesses for financial contributions and some of the first have been contributing every concert year since the beginning, Santa Ana Realty, Brown Colonial Mortuary, and Red Mountain Group (owners of Floral Park Promenade shopping center). There have been many others and in recent years Original Mike's and our Gay Neighbors Families and Friends have become prominent sponsors. Many of our sponsors have continued to contribute in these economically challenging times and one, The Olde Ship Restaurant on 17th street, has already sent a financial contribution for this year.

In recent years we have seen the expenses of the concert rise and some donations scaled back. The money raised from the table sales does not cover the cost of the tables, chairs, and dance floor. Even the money raised during the raffle does not make up the shortfall but with the donations from our sponsors we have been able to raise enough money each year to put on next year's concert. One of our newer sponsors, Peggy Bates with State Farm Insurance, has been sponsoring the glow sticks so we can read our raffle tickets and will again this year. All our sponsors deserve our thank\$.

Departments within the City of Santa Ana also work to make this event happen, The Police, Fire, Parks Departments, and the City offices in general contribute to make this a successful and safe event.

It's amazing to think that Wendy's simple notion grew into all this hoopla and after a one-year hiatus the show will go on this year on August 25th (6 to 10 p.m.) with the theme Hooray for Hollywood. We have already purchased two cruiser bicycles and are working on other great raffle prizes. So set the date, plan your table decorations and get ready to cut a rug because there's gonna be a party in Santa Ana.

Most Beautiful Yard Contest

Usually around Home Tour time the FPNA gets a notice from the City regarding its annual Most Beautiful Yard (MBY) contest. The contest was created to recognize Santa Ana residents who have improved and maintained the exterior and landscaping of their homes. All neighborhood associations get the same notice.

The City encourages all the neighborhood associations to nominate three yards for the award. The one winner gets a lovely sign provided by the City that can be displayed in the winner's yard for a year.

Due to budget cutbacks City personnel can no longer drive around the neighborhoods and view the yards firsthand, so the decision-making rests on digital photos submitted with the nomination forms. The onus was on our shoulders to provide great photos along with the approval of the homeowner.

The FPNA Beautification Committee piled into one car with the optimistic belief that we could accomplish the task in 15 minutes. What we found driving around the neighborhood at a snail's pace was that each yard was more beautiful than the next. The process became a two-hour labor of love with an abundance of choices. The funny part of this story is that we must have looked like the Keystone Cops hanging out of the car windows taking pictures and driving in circles up and down the streets for hours. Neighbors flagged us down and said they had watched us come down their street four and five times. We explained our mission and said because we cared so much and had so many choices, it was so hard to narrow the list down to just three yards.

The final three nominated yards were (*the winner):

2214 N. Greenleaf Street (Sherry & Walter Gibson)*
2010 N. Flower Street (Mr. & Mrs. Kirk Beatty)
2418 N. Riverside Drive (Doug & Bobbie Kraus)

What a great opportunity to participate in a chance to soak up all the beautiful front yards in full bloom. A snail's pace ride through the whole neighborhood is a real treat ... try it!

The City provided the following guidelines:

JUDGING CRITERIA

1. Maintenance: condition of the driveway, absence of common storage space issues, special creative efforts in the landscaping
2. Landscaping: good landscaping design, aesthetic balance between landscaping and the rest of the property, condition of the landscaping, different design themes (herb, drought tolerant, desert, traditional)
3. Overall General Appearance: excellence in home and property maintenance

JUDGING STANDARDS

In order to maintain a fair and objective contest, we ask that you review and refer to the guidelines in the Judging Criteria when inspecting the homes in your neighborhood.

PURPOSE OF THE CONTEST

The purpose of the contest is to recognize residents of Santa Ana who have maintained and/or improved the landscaping of their homes.

CONTEST PROCEDURES

1. Judging will take place during the month of May 2012. There will be one winner for each participating Neighborhood Association.
2. The winners will be those houses that demonstrate the most attractive and/or improved look in each participating Neighborhood Association. The prize will include a mounted photograph of the winning home and a sign to display in the winner's front yard.
3. Residents are encouraged to participate by maintaining and improving their front yards. Examples of those improvements are planting flowers, trimming trees, hedges and yards, cleaning driveways, etc.

Bluebirds of Happiness in Floral Park

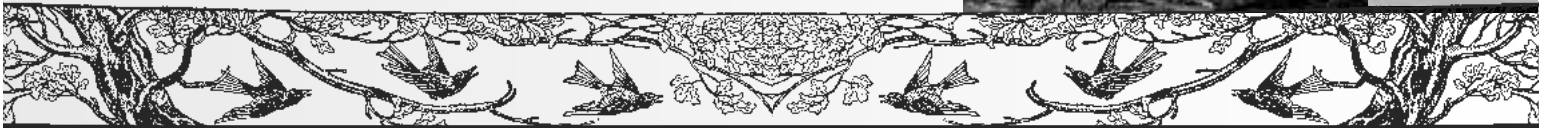

By Cathy Creekmur (Heliotrope Drive)

Did you know there was a housing shortage in Floral Park? Did you know there are bluebirds living in Floral Park? There are the larger scrub (blue) jays often seen in the neighborhood but the smaller Western Bluebirds have made their home here, too. Bluebirds are a member of the thrush family that includes robins. The bluebird males are a brilliant blue with a rusty orange breast and the females are more gray-blue.

Bluebirds are hard workers, raising and providing for their young; however finding suitable homes can be a challenge. Bluebirds are cavity-nesters which means they require a protected hollow area in a tree or a man-made nest box in which to build their nest. And not just any cavity or bird house will do. Bluebirds are very particular about their homes and location. The size of the entrance of their home is important to protect the young from predator birds. If you are thinking about investing in bluebird real estate by providing our little friends housing in Floral Park, then make sure you ask for a bird house designed specifically for bluebirds. Wild Birds Unlimited in Yorba Linda has a nice selection of feeders and houses from which to choose.

If you are interested in visiting an active bluebird home already established, come by 2345 Heliotrope on your evening stroll. I'm often in the yard around 7-ish feeding the bluebirds and watching them take care of their young. The first nestlings of this year fledged the week of May 21st. Even if I'm not in the yard, you can still see the male and female bluebirds hard at work feeding their very large family. Once the babies fledge they will continue to come to the feeder for a while until they mature and are ready to establish a home of their own. I even had them feeding from my hand last year. This year I have five new babies in the first clutch, all of whom will need homes of their own once they grow and pair off with their own mates.

So the real estate market in Floral Park is heating up. Join in the excitement. You too can own a bluebird home in this vintage neighborhood and help our feathered friends. It's all about location, location, location. Look for more information in the follow-up article in the September newsletter on birds in the neighborhood, along with an invitation to visit the backyard birds where most of the seed-loving birds hang out.

Used a high-pressure steam cleaning process to clean and reseal our bathroom tile floors, steam-clean our back patio, front and back driveway, brick walk-way and the top of our slate bbq. I was so impressed by their professionalism and willingness to go the extra mile. They re-grouted parts of our bathroom floor, repaired a piece of loose slate in the back-yard and even cleaned and resealed our bathroom countertops. This was all done in a half day and at an extremely reasonable price!
